But it is useless to discuss the wisdom of making this appropriation of the Memphis and Kansas and as if bidding for an offer from some political capitalists, amblitions of prominence or place, it seeks to ignore the existence of both the Democratic and Republican parties, and affects to look for publican parties, and affects to look for publican parties, and affects to look for publican parties, and affects to look for a nearly as the negro legislators know how to approach it. Hear him: We have no affiliation with the South. We are the victors, and to us belong the spoils. We would use you for our advancement, but we cannot accord you say voice in our national councils. We will not desecrate the dignity of our party by waging war on your local politics; but in our national distribution of loaves and fishes we'll none of you! The Avalanche is pursuing the very course which it affected to deprecate; and, in its pseudo advocacy of Southern interests is contributing more to the Radical power, which is certainly antagonistic oit, than any Republican journal in the Northern States.
